

Coaxial Cable

086-SBSMR+ Model Series

50Ω DC to 18 GHz

The Big Deal

- Hand-formable with 6mm bend radius
- SMA-M right-angle to SMA-F bulkhead connectors
- Excellent return and insertion loss
- Ideal for assembled systems

CASE STYLE: KP1680

Product Overview

086-SBSMR+ Series Hand-Flex coaxial cables are ideal for interconnecting coaxial components and sub-assemblies in a wide range of systems, including communications, military and aerospace, environmental and test chamber systems and more. The hand-formable cable provides a minimum bend radius of 6mm to accommodate tight layouts without the need for bending tools, adapters or brackets. SMA right angle to SMA bulkhead connectors make these cables ideal for perpendicular connections run directly to the front panel of rack-mounted equipment. The connectors feature an anti-torque nut to prevent cable stress during installation and an insulated outer jacket to minimize signal leakage. They are available in a range of lengths to meet a variety of connection requirements.

Feature	Advantages
Hand-formable RF cables	Facilitates the assembly of coaxial systems and sub-systems without the need for special cable-bending tools or adapters. Reduces the risk of damage during bending.
Tight bend-radius	6mm bend-radius makes the cable ideal for connections in tight spaces and crowded layouts.
18 GHz right-angle SMA connector	Meets requirements of 90°connections without bending and without sacrificing high-frequency performance.
18 GHz SMA bulkhead connector	Ideal for making secure connections directly through equipment chassis panels.
Excellent return loss	Suitable for interconnecting a variety of RF components while minimizing VSWR ripple contribution.
Good power handling • 211 W at 0.5 GHz • 35 at 18 GHz	Supports medium to high RF power levels used in transmit paths.
Anti-torque nut	Reduces risk of twist damage to cable during installation.

Notes

A. Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document.

B. Electrical specifications and performance data contained in this specification document are based on Mini-Circuit's applicable established test performance criteria and measurement instructions.

C. The parts covered by this specification document are subject to Mini-Circuits standard limited warranty and terms and conditions (collectively, "Standard Terms"); Purchasers of this part are entitled to the rights and benefits contained therein. For a full statement of the Standard Terms and the exclusive rights and remedies thereunder, please visit Mini-Circuits' website at www.minicircuits.com/MCLStore/terms.jsp

Coaxial Cable

50Ω 5 inch DC to 18 GHz

Maximum Ratings

Operating Temperature	-55°C to 105°C		
Storage Temperature	-55°C to 105°C		
Power Handling at 25°C, Sea Level	211W	at	0.5 GHz
	150W	at	1 GHz
	101W	at	2 GHz
	59W	at	6 GHz
	45W	at	10 GHz
	35W	at	18 GHz

Permanent damage may occur if any of these limits are exceeded.

Outline Drawing

Outline Dimensions (inch/mm)

A	B	C1	C2	D	E1

Cable Construction

Connectors: Coupling Nut: Stainless Steel Passivated
 Body: Stainless Steel Gold Plated
 Center Pin: Brass, Gold Plated (SMA-M) and BeCuB Gold Plated (SMA-F)

Features

- Wideband frequency coverage, DC to 18 GHz
- Low Loss, .6 dB at 18 GHz
- Excellent Return Loss, 18 dB at 18 GHz
- SMA-F bulkhead connector at one end
- Hand formable to almost any custom shape without special bending tools
- 6mm bend radius for tight installations
- Anti-torque nut prevents cable stress during installation
- Insulated outer jacket standard
- Connector interface, meets MIL-STD-348
- **Ideal for interconnect of assembled systems**

Applications

- Bulkhead connector mounts on front panel of equipment racks
- Replacement for custom bent 0.086" semi-rigid cables
- Communication receivers and transmitters
- Military and aerospace system
- Environmental and test chambers
