

# RF-LAMBDA

LEADER OF RF BROADBAND SOLUTIONS

## RFAPLT01G23G

### Input Over Drive Front End Protector 1 - 23GHz

#### Features

- Wide Band operation 1-23GHz
- Active, High Isolation Limiter
- Low Insertion Loss and Good Return Loss
- High Power Handling Capability up to 1W
- Customization available upon request

#### Electrical Specifications, $T_A=25^\circ\text{C}$ , $V_{CC}=+5\text{V}$

| Parameters                                               | Min            | Typ | Max | Min     | Typ | Max | Units  |
|----------------------------------------------------------|----------------|-----|-----|---------|-----|-----|--------|
| Frequency Range                                          | 1 - 10         |     |     | 10 - 23 |     |     | GHz    |
| CW Input Power                                           |                |     | 1   |         |     | 1   | W      |
| Peak Power (<10% <2us)                                   |                |     | 2   |         |     | 2   | W      |
| Insertion Loss                                           |                | 2.0 | 2.5 |         | 4.0 | 4.5 | dB     |
| VSWR                                                     |                | 1.5 | 1.8 |         | 1.5 | 2   | :1     |
| Flat Leakage @ Pin $\leq 30$ dBm                         |                | -17 | -15 |         | -10 | -9  | dBm    |
| Peak Power Leakage at Pin $\leq 33$ dBm<br>(<10%, < 2us) |                | -12 | -11 |         | -6  | -5  | dBm    |
| Supply Current ( $V_{CC} = +5\text{V}$ )                 |                | 260 | 300 |         | 260 | 300 | mA     |
| Weight                                                   | 5.29           |     |     |         |     |     | ounces |
| Input / Output Connectors                                | SMA - Female   |     |     |         |     |     |        |
| Material                                                 | Aluminum       |     |     |         |     |     |        |
| Finishing                                                | Nickel Plating |     |     |         |     |     |        |

#### Environmental Specifications

|                                              |                                                                                  |
|----------------------------------------------|----------------------------------------------------------------------------------|
| Operational Temperature ( $^\circ\text{C}$ ) | -45 to +85                                                                       |
| Storage Temperature ( $^\circ\text{C}$ )     | -55 to +125                                                                      |
| Altitude                                     | 30,000 ft. (Epoxy Sealed Controlled environment)                                 |
|                                              | 60,000 ft. 1.0psi min (Hermetically Sealed Un-controlled environment) (Optional) |
| Vibration                                    | 25g RMS (15 degrees 2KHz) endurance, 1 hour per axis                             |
| Humidity                                     | 100% RH at 35c, 95%RH at 40 deg c                                                |
| Shock                                        | 20G for 11msec half sine wave, 3 axis both directions                            |
