

General Description

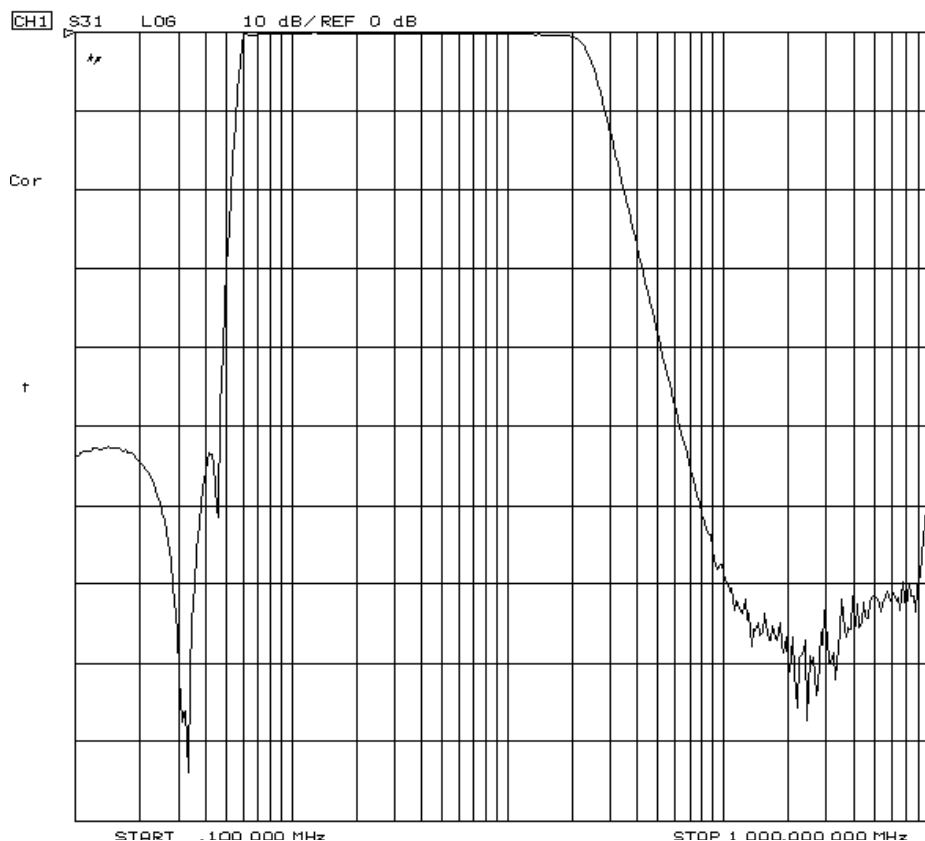

KR Electronics part number 3033 is a 600 KHz to 20 MHz band-pass filter. Other center frequencies and are bandwidths available. Please consult the factory.

Features

- Wide Bandpass
- Min 2 dB Passband
600 KHz to 20 MHz
- 50 Ω Source and Load
- BNC(f) Connectors

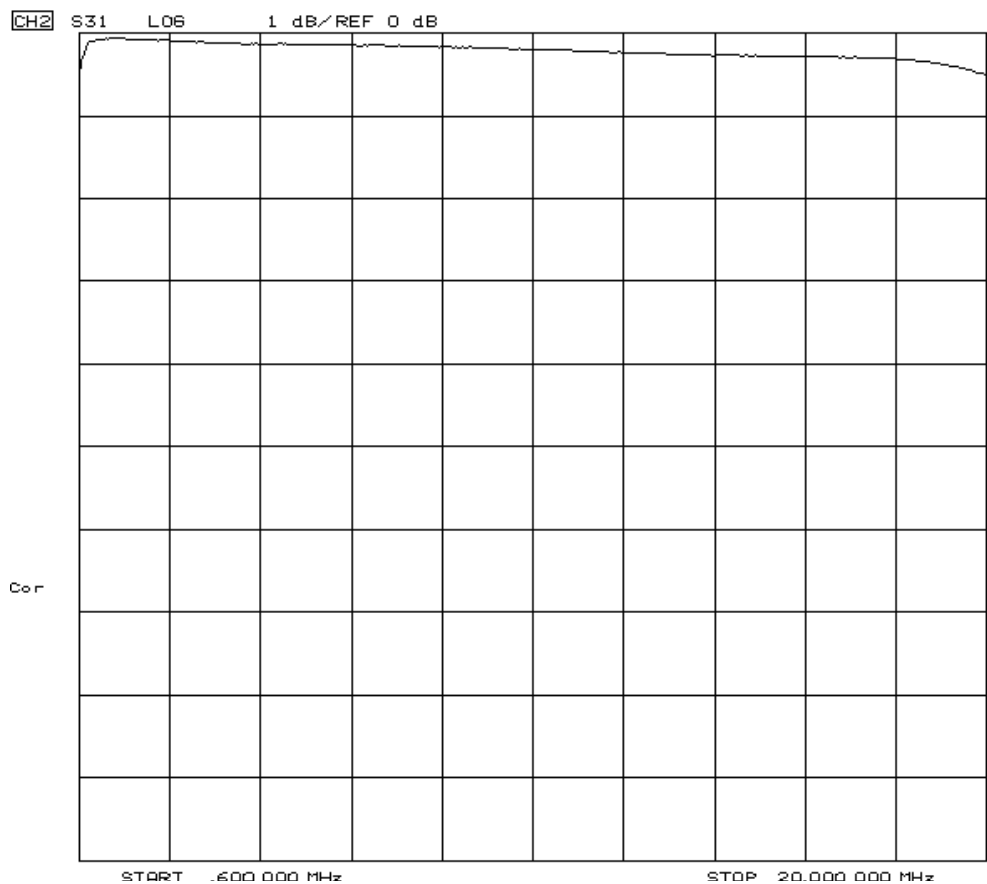

Typical Performance

Overall Response
(10 dB/div)

Typical Performance

Passband Amplitude (1 dB/div)

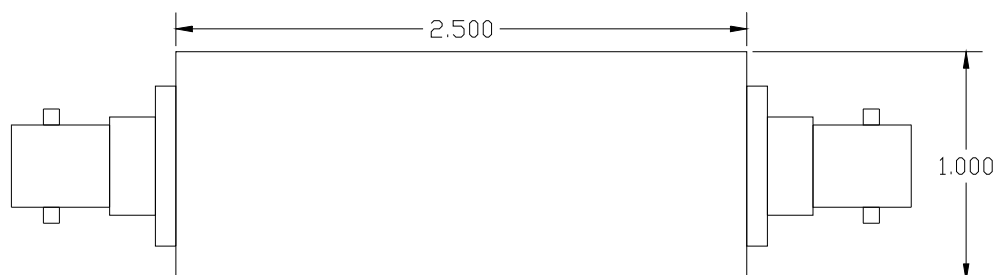

KR Electronics 3033

Specifications

Parameter	Specification	
Filter type	Bandpass	
Passband (<2 dB)	600 KHz to 20 MHz	Typical <1 dB
Rejection at 450 KHz	50 dB min	
Source and Load	50 Ω	

Physical Dimensions

Notes:

1. Rectangular Case 1" x 1" x 2.5"
2. BNC(f) Connectors Input/Output
